

Overview

I have worked my way from bartender to bar manager and done multiple jobs in-between. My aim is to obtain a bartending position in an establishment where I can utilise my 5 years of bartending and cocktail experience to entertain guests while preparing stunning custom cocktails and beverages. I have an outgoing attitude, an eye for detail and understand the importance of bar safety and cleanliness. I am ideally looking for a place that has a collaborative work environment, somewhere where I can take my bartending skills to the next level.
